

LED Barricade Light (SKU# BL-LED)

Our LED barricade light is designed to attach to our type I, type II, and type III barricades, channelizer drums, a-frame barricades, and vertical panels. The barricade light attaches to the barricade with a bolt. The light contains a photocell to conserve battery life by operating only at night. The barricade light can toggle between flash and steady burn mode.

Package Contents: Requires (4) D-Cell batteries (*not included*)

Technical Specifications:

- Meets ITE 4S-2 Purchase Specification for Flashing and Steady Burn Warning Lights - Type A & Type C.
- Photocell switches light off during daylight when light levels are above 215 lux.
- Battery Type: D-Cell (4 required)
- Nominal Voltage: 3 volts
- Flash Rate: 55 to 75 flashes per minute
- Nominal Current (Flashing): 21 mA
- Nominal Current (Steady): 26 mA
- Lens Color: Amber

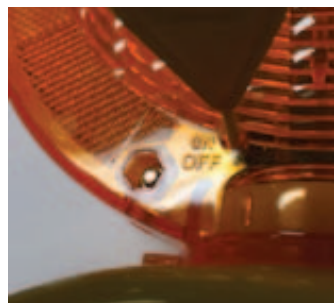

(1) Light (1) Bolt (1) Key Drive Socket
(1 per case of 10 lights)

Instructions for Use:

Insert batteries by removing battery holder from the bottom of the light. Ensure that the polarity of the batteries is correct. A black + indicates the positive terminal for the battery. Reinsert the battery holder into the bottom of the light.

The key can be inserted into the "ON-OFF" switch to toggle the light between on and off. The key can also toggle the "MODE" switch to change the light from flash to steady.
