

## Type B High-Intensity LED Barricade Light (SKU# BL-LEDB)

Our hooded high-intensity LED barricade light is designed to attach to our type I, type II, and type III barricades, channelizer drums, a-frame barricades, vertical panels, and can be installed on top of signs. The barricade light attaches to the barricade or sign with a bolt. The light contains a photocell to dim light at nighttime and switch to full brightness in daytime.

**Package Contents:** Requires (4) D-Cell batteries (*not included*)

### Technical Specifications:

- Meets ITE Purchase Specification for Flashing and Steady Burn Warning Lights - Type B.
- Photocell dims light at nighttime and switches to full brightness in daytime, per ITE-ST017.
- Battery Type: D-Cell (4 required)
- Nominal Voltage: 3 volts
- Nominal Current (Full Brightness): 75 mA
- Nominal Current (Reduced Brightness): 40 mA
- Lens Color: Amber/White

(1) Light

(1) Bolt

(1) Key

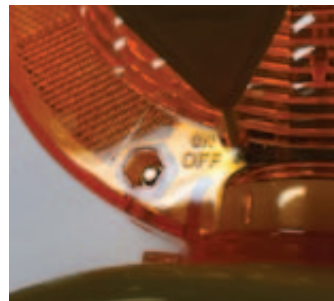

Drive Socket  
(1 per case of 10 lights)

### Instructions for Use:

Insert batteries by removing battery holder from the bottom of the light. Ensure that the polarity of the batteries is correct. A black + indicates the positive terminal for the battery. Reinsert the battery holder into the bottom of the light.

The key can be inserted into the "ON-OFF" switch to toggle the light between on and off. The key can also toggle the "MODE" switch to enable/disable automatic nighttime brightness control. When this feature is enabled, the light operates in reduced brightness mode at night.
