

Round sign posts are ideal for installing multiple signs on one post. For example, a stop sign can be installed on the front using our H-125 post clamps, and street name signs can be installed on top using our cast aluminum street name sign brackets. Signs can also be installed back-to-back on round posts, using our H-126 post clamps.

Our round sign posts are galvanized for durability and rust resistance. Outer diameter is 2-3/8". Other styles are available upon request.

Round Sign Post Specifications:

- 2-3/8" outer diameter
- Post is galvanized steel to prevent rust
- Signs can be installed with sign post clamps SKU# H-125 or H-126
- Other weights and lengths available by special order
- Standard wall thickness is .065"
- Sold individually or by bundle of 37

Length	Wall Thickness	Part #
8 ft.	16 gauge (.065")	P238-8
10 ft.	16 gauge (.065")	P238-10
12 ft.	16 gauge (.065")	P238-12
3 ft. Base	16 gauge (.065")	P238-3

Sign posts longer than 8 feet in length must ship to a commercial address via tractor trailer.

Round Post Clamps:

Easily install signs on 2-3/8" round sign posts. Clamps are sold in pairs. The H-125 mounts signs on one side only and the H-126 mounts signs on front and back.
